

Facial Filler (Juvederm Ultra Plus) Special

Purchase 2 Syringes of Juvederm Ultra Plus and receive \$100 OFF* (both syringes must be used during same visit)

Facial or dermal fillers help to diminish facial lines and restore volume and fullness in the face. As we age, our faces naturally lose subcutaneous fat. The facial muscles are then working closer to the skin surface, so smile lines and crow's feet become more apparent.

Facial fillers can be very helpful in those with signs of aging. Often clients will need multiple syringes of filler to achieve their desired results and depending on the filler used, results can last up to one or two years.

Facial Fillers can:

- Plump thin lips
- Enhance shallow contours
- Soften facial creases and wrinkles

Dermasweep MD & Chemical Peel

Purchase a 3-Pack of Dermasweep MD Treatments and Receive a FREE PCA Chemical Peel

Dermasweep MD: Patients see a noticeable skin improvement after the first Dermasweep MD treatment with little or no down time. A series of treatments are recommended to achieve optimal results.

Chemical Peel: Medical grade chemical peel, also known as chemexfoliation or derma-peeling, is a technique used to remove the top layers of the skin, creating a healthier, refreshing looking appearance. They can improve the look and feel of skin that is dull in texture and color.
